BURNS

Including Thermal Injury

The Journal of the International Society for Burn Injuries

VOLUME 4 1977–78

EDITORIAL COMMITTEE

Executive Editor
Mr J. Ellsworth Laing, FRCS,
Odstock Hospital, Salisbury, England.

Senior Editor
Mr Bruce G. MacMillan,
Shriners Hospitals for Crippled Children, Burns Institute, 202 Goodman Street, Cincinatti 45219, U.S.A.

Dr Fortunato Benaim,
Independencia 947, Buenos Aires, South America.

Professor Gosta Arturson,
Swedish Medical Research Council, Burn Centre, University Hospital, S-750-14 Uppsala, Sweden.

Dr Fernando Enriquez de Salamanca,
Felipe II, 18 Madrid 9, Spain.

Mr A. Murray Clarke,
Royal Children's Hospital, Flemington Road, Parkville, Victoria 3052, Australia.

Dr Seiichi Ohmori,
Department of Plastic Surgery, Tokyo Metropolitan Police Hospital, 20-10-41 Fujimi Chiyoda-Ku, Tokyo, Japan.

Dr M. H. Keswani,
Burns Research Unit, Bai Jobai Wadia Hospital for Children, Bombay, India.

Contents of Volume 4

Number 1

Peripheral blood T and B lymphocytes in patients with burns. I. Test parameters and clinical evaluation of the rosette assays
F. J. Volenec, M. M. Mani, G. M. Clark, D. W. Robinson and L. J. Humphrey 1

Peripheral blood T and B lymphocytes in patients with burns. II. Sequential rosette analyses considering burn severity and pseudomonas sepsis
F. J. Volenec, M. M. Mani, G. M. Clark, D. W. Robinson and L. J. Humphrey 7

The hypertrophic scar: location of glycosaminoglycans within scars
M. R. Shetlar, C. L. Shetlar and H. A. Linares 14

Treatment of second-degree burns of the hand: a comparison of occlusive dressings and gloves
Peter A. Frandsen, H. Overgaard-Nielsen and Jørgen Sommer 20

Graft adherence to wound surfaces: collagen fibrin interactions
James W. Thornton, Michael J. Tavis, John H. Harney, Hubert Pirkle, Robert H. Bartlett and E. Aubrey Woodroof 23

Trace elements in burned patients: studies of zinc, copper and iron contents in serum
M. Sanchez-Agreda, G. A. Cimorra, M. Mariona and A. Garcia-Jalón 28

Inhalation injury and progressive pulmonary insufficiency in a British burns unit
Joan M. Brown 32

Symposium: The Treatment of Burns. Introduction *W. J. Rudowski* 44

First aid and transport of the burned patient with reference to Indian conditions
M. H. Keswani 46

Treatment of burns in a district hospital *S. Arora and N. H. Antia* 49

Early management of burns *N. Rangabashyan* 52

Immunological studies in burns
N. H. Antia, R. Srinivasan, N. Mistry, H. G. Mehta and S. Arora 55

Excision of burns *Z. Janžekovič* 61

Summing up *W. J. Rudowski* 67

Abstracts 72

References to articles 78

Book Review 80

Number 2

Predicting the survival of burned patients using discriminant function analysis
G. M. Clark, F. J. Volenec, M. M. Mani, D. W. Robinson and L. J. Humphrey 81

Adjunct role of scintigraphy and bronchoscopy in the early diagnosis of respiratory burns
Stuart P. Pegg, V. M. Hinckley and N. Adiseshan 86

The reliability of clinical assessment of the depth of burns
Marko Godina, Mirko Derganc and Arsen Brčič 92

An experimental study for diagnosis of burn depth *K. Güler Gürsu* 97

Skin as an organ transplant: vascularization and healing in autografts of increasing size
Eric A. Guthy, Juanito B. Billote and John F. Burke 104

Evaluation of exercise techniques in the burn patient
Lee E. Edstrom, Martin C. Robson and Barbara J. Headley 113

Effects of beta-adrenergic blocking agents during the septic-toxic phase of thermal injury
Kornél Szabó and János Novák 118

Serum cholinesterase deficiency in major burns *Sylvia Frolich* 123

Opportunistic phycomycosis in burn patients: a report of two cases requiring amputation of the left arm *Hugo A. Linares and Duane L. Larson* 129

Suppurative thrombophlebitis caused solely by *Candida albicans*
J. Stadler, M. P. Karp, J. M. Stein, E. Stein and S. M. Levenson 133

Paraffin and sustained stretching in the treatment of burn contractures
Marjorie D. Head and Phala A. Helm 136
Heparin improves and α-blocker treatment possibly impairs the host resistance in burns
Sirpa Asko-Seljavaara, Antti Alho, Börje Sundell and Tapio Rytömaa 140
Methaemoglobinaemia resulting from the absorption of 4 per cent Sulfamylon acetate gel
Irene Monies-Chass, Kurt Simon, Paula Sternman, Jesmond Birkhan and Bernard Hirshowitz 143
Scalds from motor vehicle cooling systems *M. A. P. Milling* 145
Abstracts 147
References to articles 150

Number 3

New pathophysiological mechanism explaining post-burn oedema
Elof Eriksson and Martin C. Robson 153
Reduction of thermal oedema with Venalot *Jiri Šmahel* 157
Maceration applied to burns *Giovanni Dogo* 160
Morphological changes of lymph nodes of children following acute thermal burns
Hugo A. Linares, Gerald A. Beathard and Duane L. Larson 165
The role of central venous pressure monitoring in the management of burn shock
S. K. Bhatnagar, J. L. Gupta and J. L. Srivastava 171
A laboratory method for selection of tropical antimicrobial agents to treat infected burn wounds
Paul Nathan, Edward J. Law, Daniel F. Murphy and Bruce G. MacMillan 177
Clinical evaluation of porcine xenograft dressings *John A. E. Hobby and Paul L. Levick* 188
The use of Superex bandages in a burns unit *Andreas Yiacoumettis and Dai Davies* 193
Burns associated with mechanical injuries *János Novák, Tibor Papp and Zoltán Záborszky* 197
The red cell enzyme response to thermal injury *Stella Baar* 207
Abstracts 216
References to articles 221
Book Reviews 223

Number 4

A new topical agent (Debrisan) for the early treatment of the burned hand
G. Arturson, L. Hakelius, S. Jacobsson and U. Rothman 225
Cerium sulphadiazine as a topical agent for burn wound infections: a comparison with silver sulphadiazine and zinc sulphadiazine
Charles L. Fox, Shanta M. Modak and John W. Stanford 233
An index for estimating resistance to infection in patients with burns
E. A. Roe and R. J. Jones 240
Phosphorus burn in primates: a conclusive experimental study of a new specific therapy
N. Ben-Hur, J. Shani and J. Appelbaum 246
Proteins in blister fluid *Peter G. Shakespeare, Paul L. Levick and Raji B. Vaitheespara* 254
Electrical burns: a review of 80 cases
J. K. Sinha, N. N. Khanna, F. M. Tripathi, V. Bhattacharya and Meera Dutta Chowdhary 261
Burns of the female breast: a long term study *J. A. Trott and J. A. E. Hobby* 267
Lyophilized pigskin in the treatment of superficial and deep dermal burns
L. Sully and B. N. Bailey 271
Hypernatraemia: a cause of death in burn patients *D. D. Rao* 277
Treatment of full-thickness burns with Travase: results of a clinical trial
P. L. Levick, M. D. Brough, C. T. Vasilescu and J. E. Laing 281
And a baby was born *M. L. Champagnie* 285
A new method for oral administration of nystatin in paediatric burn patients
Robert Feinstein, Philip D. Thomson and James A. Reinarz 288
Abstracts 291
References to articles 294
Facilities for burn treatment in the United Kingdom 1978 297
